FEMA-4272-TX

Narratives

Disaster Damage:

Over the past two years, Texas has experienced major disaster events — including numerous floods, tornadoes, and wildfires — that have produced six disaster declarations spread over 160 of the state’s 254 counties. The Texas counties impacted represent 76 percent of the Texas population, or 20.9 million people — a population greater than that of 48 states. In particular, the recent 2016 events were devastating, killing 29 Texans and causing significantly more public and private property damage due to the compounding effects of the 2015 floods.

The Texas General Land Office estimates a combined loss of over \$2 billion in unmet long-term recovery need, given the impact of the multiple disasters suffered by Texas in both 2015 and 4 | Page 2016. Impacts tied to business interruption, economic losses, unemployment, property tax revenue decreases, agricultural losses, and other measures that are difficult to quantify, are not considered when allocations are made. The 2016 flooding and devastation spanning from March to June resulted in three qualifying events for appropriation under Public Laws 114-223 and 114-254

On April 17, 2016 (DR-4269) Texas was hit with a sixth catastrophic rain event over a 12-month period, initiating a rare flash flood “emergency warning” by the National Weather Service’s Houston/Galveston Weather Forecast Office. The rare warning criteria was on target, given the consequences to a highly vulnerable population. The severe flooding greatly affected first responders’ abilities to assist residents and, in some instances, even required the rescue of first responders themselves.

Parts of Southeast Texas received 10

inches or more of rain during a 24-hour period, with the heaviest rainfall occurring north and west of Houston.³ The

devastating floods covered the seven counties. The president approved the governor’s Major Disaster Declaration on April 25, 2016, with Amendment #1

issued on May 2, 2016, and Amendment #2 on May 9, 2016.

Recovery Needs:

The state will be focusing on the variety of data that help provide a comprehensive understanding of the unmet need across Texas in the housing and non-housing sectors. Given the extent of counties impacted by the disasters, a part of the unmet need calculations was determined using data provided by the Texas Division of Emergency Management (TDEM) for all applicants. These data come from the Emergency Management Mission Integrated Environment (EMMIE) database. The total projected cost for damages tied to the 2016 disasters is \$201,341,450. This results in the state’s unmet need from public assistance totaling \$57,885,667 with a resiliency multiplier of 15 percent.

The data for housing unmet needs comes from the Federal Emergency Management Agency (FEMA) and the National Emergency Management Information System (NEMIS) database. For the three disaster declarations in 2016, the total FEMA Verified Loss (FVL) is \$186,361,160. The state’s unmet need relating to FEMA Individual Assistance (IA) is \$88,131,592 with a resiliency multiplier of 15 percent. The figure for unmet need was calculated by FEMA as being FVL minus all assistance provided through the National Flood Insurance Program (NFIP), FEMA housing assistance, and Small Business Administration (SBA) assistance, as well as other assistance that could be accounted for.

The unmet need, as identified by the SBA using the total verified loss of households and businesses, is \$309,254,300 for housing and \$104,720,409 for businesses. These figures also take into consideration a resiliency multiplier of 15 percent totaling \$40,337,517 for housing data and \$13,659,184 for business data. FEMA and SBA data alone yield an unmet need for the state of Texas totaling \$559,991,968.

Overall Progress Narrative:

The Monitoring & Quality Assurance and Grant Management Teams have shifted to a risk based analysis for timely expenditures. This effort prioritizes technical assistance to subrecipients who are slower spenders or who have short terms remaining in their contracts. This tailored approach should support our communities more directly. 42 Subrecipient Infrastructure and 8 Housing contracts are underway in various stages. HUD notified GLO on 11/10 they approved Amendment 6. Approval letter received with signature date of 11/1.

HOUSING & INFRASTRUCTURE

During the quarter 34 DR Billing draws were approved for \$3,706,175.37. 5 TIGR draws were approved for 265,709.50.

Houston - Buyout Program

During the reporting period, the City of Houston had no new projects completed and 3 were underway and anticipated to expend all funds. The GLO is processing a 1-year extension until April, 2023. One of the acquisition draws is still pending additional information, and one project is very close to final close-out and should be reported next quarter.

Data

Measure Description - Q4

Projects Received by GLO - 0

In Review/ Pending Additional Information - 0

GLO Approved - 0

Projects Completed - 0

Harris County - Infrastructure/Buyout Program

During the reporting period, 2 projects were 100% complete, 1 project at 99% complete, 2 projects at 70%, and 1 project at 52% complete.

Affordable Rental Program

Madisonville is 70% constructed at time of reporting, projected to complete construction in Q1 2022. Cross Plains still in planning phase and expecting to receive AUGF in Q1 2022.

GLO's efforts to expedite implementation and expenditures

Harris County - Housing/Infrastructure Programs

Harris County infrastructure projects have made substantial progress on construction with draws expected to increase closer to completion. The county's housing program underwent a contract amendment in the previous quarter to reallocate funds. COVID and supply shortages have also caused delays to this program.

Houston - Buyout Program

A contract amendment is in process to reallocate Admin funds to Project Delivery as well as extend the contract until April 2023. Approximately \$11M in draws are pending additional information from the city. The GLO expects responses within Q1 2022 in addition to another \$3-5M in both project and project delivery expenses. The city is currently providing URA assistance to approximately 180 tenants/households from 2 projects. The city anticipates these tenants will be completely relocated by August 2022 and begin drawing funds in early-2022.
